

FORD AOD NEW 6 CLUTCH DIRECT CLUTCH DRUM

There is now available from OEM a new Direct Clutch Housing that has the capacity increased to 6 lined clutch plates. The new Direct Clutch Housing is the cast iron design (Not Stamped Steel) and still uses the previous piston, return spring, steel plates, pressure plate, and snap ring. Simply add one more lined plate and one more steel plate. The new "6 Pack" Direct Clutch Housing will greatly improve direct clutch durability, and is available under OEM part NO. E8LY-7F283-A.
