FORD AXOD AXOD VALVE BODY GASKET CHANGES

Since the start of production in 1986, the pump and valve body gaskets have changed for every model year on the AXOD. There are now a total of 12 gaskets for this transaxle, 4 for each model year, and they WILL NOT INTERCHANGE.

Use the chart provided below to determine the application, as the gaskets are color coded with a stripe for easy identification.

	1986 NO STRIPE	1987 WHITE STRIPE	1988 YELLOW STRIPE
PUMP HOUSING TO PUMP SPACER PLATE GASKET	E6DZ-7G331-A	E7DZ-7G331-A	E8DZ-7G331-A
PUMP SPACER PLATE TO VALVE BODY GASKET	E6DZ-7A136-A	E7DZ-7A136-A	E8DZ-7A136-A
VALVE BODY TO VALVE BODY SPACER PLATE GASKET	E6DZ-7D100-A	E7DZ-7D100-A	E8DZ-7D100-A
VALVE BODY SPACER PLATE TO CHAIN COVER GASKET	E6DZ-7C155-A	E7DZ-7C155-A	E8DZ-7C155-A

The OEM part number is also imprinted on the gaskets, so you can use the same chart above to determine location, so that you do not get the gasket on the wrong side of the spacer plate.
