

# Technical Service Information

## THM 440-T4 LOWER CHANNEL PLATE CHANGE

**CHANGE:** Additional feed hole for revised hydraulics.

**REASON:** Elimination of governor oil and addition of drive servo apply oil and manual 2-1 servo oil passages.

**PARTS AFFECTED:**  
New gasket has revised feed hole locations to accommodate channel plate and case changes (FIGURE 1).

**INTERCHANGEABILITY:**  
The “4T60” gasket WILL interchange with the “4T60-E” gasket.
