

Technical Service Information

THM 4L60 (700-R4) LONG LIP SEALS ARE BACK

Beginning at the start of production 1994, the manufacturer is once again using "Long Lip Seals" in the outer locations on all THM 4L60-E transmissions. This is being done as "Running Changes" through 1994, and apply to the following:

- 1 REVERSE INPUT CLUTCH OUTER
- 2 3-4 CLUTCH OUTER
- 3 FORWARD CLUTCH OUTER
- 4 OVERRUN CLUTCH OUTER

Please specify "Long Lip Seals" when ordering gasket and seal kits from your supplier for all THM 4L60 and 4L60-E transmissions.
